## **1. GENERAL INFORMATION**

### **1.1 RFP Objective**

The objective of ERCOT in this procurement is to identify and contract with a qualified supplier to replace the roof at ERCOT's TCC 1 and TCC 2 buildings in Taylor, TX.

### **1.2 ERCOT Background**

#### **1.2.1 Overview of Electric Reliability Council of Texas, Inc.**

The Electric Reliability Council of Texas (ERCOT) manages the flow of electric power to 24 million Texas customers, representing approximately 90 percent of the state's electric load. As the Independent System Operator for the region, ERCOT schedules power on an electric grid that connects more than 43,000 miles of transmission lines and 550 generation units. ERCOT also performs financial settlement for the competitive wholesale bulk-power market and administers retail switching for 7 million premises in competitive choice areas. ERCOT is a membership-based 501(c)(4) nonprofit corporation governed by a board of directors and subject to oversight by the Public Utility Commission of Texas and the Texas Legislature. Additional information about ERCOT can be found at <http://www.ercot.com/>.

### **1.3 Strategic Elements**

#### **1.3.1 Contract Term**

ERCOT intends to award a contract resulting from this solicitation for an initial term from date of award as necessary to fulfill the goals of this RFP.

Any contract issued as a result of this solicitation is subject to cancellation, without penalty, either in whole or in part, for breach of contract. Such a contract may also be canceled by ERCOT for convenience upon a thirty (30) day written notice.

#### **1.3.2 Contract Elements**

The term "contract" means the contract was awarded as a result of this RFP and all exhibits attached hereto. At a minimum, the following documents will be incorporated into the contract: this RFP and all attachments and exhibits; any modifications, addendum, or amendments issued in conjunction with this RFP; and the successful Respondent's proposal. Respondent, if selected, must execute ERCOT's Master Agreement. The actual work to be performed and the compensation for such work will be

documented in a Statement of Work. If the Respondent currently has an active Master Agreement with ERCOT, only a new Statement of Work will be required.

#### **1.4 Basic Philosophy: Contracting for Results**

ERCOT'S fundamental commitment is to contract for value and successful results. A successful result is denoted as the generation of defined, measurable, and beneficial outcomes that support ERCOT's missions, objectives, and goals, and satisfies all defined contract requirements.

#### **1.5 Legal and Regulatory Constraints**

##### **1.5.1 Conflicts of Interest**

ERCOT seeks to ensure a level playing field in the award of the contract. ERCOT has implemented an aggressive policy concerning actual or potential conflicts of interest to ensure fair and open competition, and has included language concerning actual and potential conflicts of interest in Section 8 of the Master Agreement. Respondents must carefully review and understand this language when developing proposals.

##### **1.5.2 Former Employees of ERCOT**

The Respondent must disclose any past employment of its employees and agents, or its subcontractors' employees and agents, by ERCOT, including the individual's name and the date such individual's employment at ERCOT ended.

##### **1.5.3 Interpretive Conventions**

Whenever the terms "shall," "must," "or "is required" are used in this RFP in conjunction with a specification or performance requirement, the specification or requirement is mandatory for the potential vendor. ERCOT may, at its sole discretion, reject any proposal that fails to address or meet any mandatory requirement set forth herein/.

Whenever the terms "can," "may," or "should" are used in this RFP in conjunction with a specification or performance requirement, the specification or performance requirement is a desirable, but not mandatory, requirement.
