1. General Information

1.1. Request for Proposal (RFP) Objective

The objective of ERCOT in this procurement is to identify and contract with a qualified vendor to provide webcasting services for:

- (a) All public sessions of ERCOT's Board of Directors (Board) and Board Committee meetings, as required by law, for a flat fee paid solely by ERCOT;
- (b) All Technical Advisory Committee (TAC) meetings without charge to ERCOT or any other party, as part of the overall engagement with ERCOT; and
- (c) Any other meetings as may be requested by ERCOT from time to time for additional per-meeting fees paid solely by ERCOT.

1.2. ERCOT Background

1.2.1. Overview of Electric Reliability Council of Texas, Inc.

The Electric Reliability Council of Texas (ERCOT) manages the flow of electric power to 24 million Texas customers, representing about 90 percent of the state's electric load. As the independent system operator for the region, ERCOT schedules power on an electric grid that connects more than 46,500 miles of transmission lines and 570+ generation units. ERCOT also performs financial settlement for the competitive wholesale bulk-power market and administers retail switching for 7 million premises in competitive choice areas. ERCOT is a membership-based 501(c)(4) nonprofit corporation, governed by a board of directors and subject to oversight by the Public Utility Commission of Texas and the Texas Legislature. Additional information about ERCOT can be found at <http://www.ercot.com/>.

1.3. Strategic Elements

1.3.1. Contract Term

ERCOT intends to award a contract resulting from this solicitation for a multi-year term, or as necessary to fulfill the goals of this Request for Proposal (RFP).

Any contract issued as a result of this solicitation is subject to cancellation, without penalty, either in whole or in part, for breach of contract. Such a contract may also be canceled by ERCOT for convenience upon a thirty- (30) day written notice.

1.3.2. Contract Elements

The term "contract" means the contract was awarded as a result of this RFP and all exhibits attached hereto. At a minimum, the following documents will be incorporated into the contract: this RFP and all attachments and exhibits; any modifications, addendum, or amendments issued in conjunction with this RFP; and the successful Respondent's proposal. The Respondent, if selected, must execute ERCOT's Master Agreement. The actual work to be performed and the compensation for such work

will be documented in a Statement of Work. If the Respondent currently has an active Master Agreement with ERCOT, only a new Statement of Work will be required.

1.4. Basic Philosophy: Contracting for Results

ERCOT'S fundamental commitment is to contract for value and successful results. A successful result is denoted as the generation of defined, measurable, and beneficial outcomes that support ERCOT's missions, objectives, and goals, and satisfies all defined contract requirements.

1.5. Legal and Regulatory Constraints

1.5.1. Conflicts of Interest

ERCOT seeks to ensure a level playing field in the award of the contract. ERCOT has implemented an aggressive policy concerning actual or potential conflicts of interest to ensure fair and open competition, and has included language concerning actual and potential conflicts of interest in Section 8 of the Master Agreement. Respondents must carefully review and understand this language when developing proposals.

1.5.2. Former Employees of ERCOT

The Respondent must disclose any past employment of its employees and agents, or its Subcontractors' employees and agents, by ERCOT, including the individual's name and the date such individual's employment at ERCOT ended.

1.5.3. Interpretive Conventions

Whenever the terms "shall," "must," "or "is required" are used in this RFP in conjunction with a specification or performance requirement, the specification or requirement is mandatory for the potential vendor. ERCOT may, at its sole discretion, reject any proposal that fails to address or meet any mandatory requirement set forth herein.

Whenever the terms "can," "may," or "should" are used in this RFP in conjunction with a specification or performance requirement, the specification or performance requirement is a desirable, but not mandatory, requirement.

1.6. ERCOT Point of Contact

The sole point of contact for inquiries concerning this RFP is:

Jason Terrell
2705 West Lake Drive
Taylor, Texas 76574

Jason.terrell@ercot.com

All communications relating to this RFP must be directed to the specified ERCOT contact person. All other communications between a Respondent and ERCOT staff concerning this RFP are prohibited. Failure to comply with this section may result in ERCOT's disqualification of the proposal.

2. Scope and Requirements

2.1. Project Scope Overview

ERCOT seeks an entity with expertise in providing a cloud-based webcasting solution which allows ERCOT to:

- (a) Comply with the law which requires ERCOT to webcast public portions of the meetings of its Board and Board Committees live for free to the public with ERCOT to be solely responsible for payment of a flat fee for these services. Specifically, Public Utility Regulatory Act (PURA) Section 39.1511(c) (Public Meetings of the Governing Body of an Independent Organization) requires that “The commission shall ensure that an independent organization certified under Section 39.151 [that is, ERCOT] makes publicly accessible without charge live Internet video of all public meetings [of ERCOT’s Board and Board Committees] subject to this section from an Internet website;”
- (b) Webcast TAC meetings live for free to the public at no charge to ERCOT or any other party as part of the overall engagement with ERCOT; and
- (c) Webcast any other meetings as requested by ERCOT live for free to the public for additional per-meeting fees paid solely by ERCOT.

ERCOT seeks a "best in class" video webcasts solution for certain public meetings so that the meetings can be easily and readily viewed and heard by the general public on personal computers or mobile devices, at no cost to the viewers, in real time and later as archived on a publicly accessible website (as further described in Section 1.2.4 below).

ERCOT will be solely responsible for payment of fees related to webcast solutions in this procurement. Respondents are not eligible to charge subscriptions for a fee to any party other than ERCOT in relation to any meetings subject to this engagement.

A general overview of the project scope is provided in the chart below:
