

88th Legislative Session – ERCOT Status

ERCOT Public
February 2025

This document summarizes ERCOT’s progress in implementing statutory requirements that affect the organization and arise from legislation adopted by the 88th Legislature in 2023.

Please note this document does not address the legislative obligations or implementation activities of other organizations, such as, but not limited to, the Public Utility Commission of Texas (PUC), the Railroad Commission of Texas (RRC), the Independent Market Monitor (IMM), and ERCOT Market Participants.

This document also includes updates regarding ERCOT’s implementation of changes in law enacted by the 87th Legislature that were in progress when the 88th Legislative Session ended. A full status of ERCOT actions from the 87th Legislative Session as of June 1, 2023, is available on [ERCOT.com](https://www.ercot.com).

Texas State Budget: HB 1 is the General Appropriations Act. It includes appropriating State funds for the Department of Transportation (TXDOT) to develop and implement an interagency task force to evaluate medium-duty and heavy-duty vehicle charging infrastructure and capacity.

	Complete	Support Task Force in preparing report on deployment of zero-emission, medium and heavy-duty vehicle charging infrastructure	9/28/24	Hobbs	<ul style="list-style-type: none"> Page VII-33 of HB 1 (not codified)

HB 1500, Section 4, Biennial Report: HB 1500 in part requires the PUC to publish a report that includes suggestions for improvement of utility regulation, an assessment of the effects of competition and industry restructuring, a summary of PUC actions that reflect changes in the scope of competition in regulated electric markets, and recommendations for the Legislature.

Status	ERCOT Action Item	Completion Date	Accountable Executive(s)	References	
	ERCOT input Complete	Support PUC, as needed, in compiling data for this report.	12/20/24	Collins Woodfin Hobbs	<ul style="list-style-type: none"> • PURA § 12.203 • PUC Project No. 56335

HB 1500, Section 8, Service Interruption Notification: The PUC, by rule, shall require a provider of electric generation service to provide to ERCOT the reason for each unplanned service interruption. ERCOT shall publish this information on its website no later than three business days after service is restored.

Status	ERCOT Action Item	Completion Date	Accountable Executive(s)	References
 Complete	Post on the ERCOT website the reason for each unplanned service interruption no later than the 3 rd business day after service is restored	12/9/22	Woodfin	• NPRR1097
 Not Started	Monitor and participate in PUC project until complete	TBD	Woodfin	• PURA § 35.0022(b)
 Not Started	After PUC project, determine whether existing processes for timely posting regarding unplanned outages of Generation Resources need to change	TBD	Woodfin	• PURA § 35.0022(b)

HB 1500, Section 9, Transmission Service Pricing: HB 1500 in part requires postage stamp pricing for wholesale transmission services within ERCOT. Additionally, the PUC, by rule, shall establish a reasonable allowance for Transmission Owners to recover the costs to interconnect, at transmission level, Generation Resources to the ERCOT System. The PUC will review and adjust the allowance at least every 5 years.

HB 1500, Sections 15 and 16, Governance: HB 1500 in part modifies ERCOT governance. A second PUC Commissioner is added as another *ex officio*, non-voting member of the ERCOT Board of Directors; such Commissioner shall be appointed by the PUC presiding officer and the appointment will rotate annually. The ERCOT Board's authority to convene in executive session is limited to discussions of risk management or matters ERCOT would be authorized to consider in a closed meeting if ERCOT were subject to the Texas Open Meetings Act. The ERCOT Board is authorized to adopt a policy that excludes PUC Commissioners, including those serving on the Board, from attending an executive-session discussion addressing a contested case or a personnel matter unrelated to the ERCOT Board. The PUC is given explicit authority to remand, with suggested modifications, proposed changes to ERCOT's protocols and rules.

HB 1500, Section 18, Essential Organizations: HB 1500 in part prohibits ERCOT from substantially modifying its contract with the Independent Market Monitor (IMM) unless approved by a majority of PUC Commissioners. The IMM is required to provide independent analysis of proposed material changes to the wholesale market and report in writing to the PUC and PUC Staff all potential market manipulations and rule violations. The PUC may not restrict the IMM from appearing or speaking before or providing analysis to the Legislature, activities and governance. Additionally, the PUC shall submit an annual report to the Legislature that includes instances of IMM reports and formal PUC investigations and enforcement actions.

 Not Started	Implement Dispatchable Reliability Reserve Services (DRRS) enhancement	TBD	Collins Woodfin	<ul style="list-style-type: none"> • PURA § 39.159(d),(e) • PUC Project No. 55797

HB 1500, Section 23, Sec 39.1591: HB 1500 in part requires that the PUC prepare an annual report to the Legislature by December 1 year on annual costs to LSEs for backing up dispatchable and non-dispatchable generation facilities and ERCOT's calculation of annual costs to facilitate the transmission of dispatchable and non-dispatchable electricity to Loads. Additionally, the reports required on and after December 1, 2024 shall address the status of implementing Subchapter D of PURA Chapter 39. (Subchapter D addresses the competitive market structure of portions of the electric industry.)

Status	ERCOT Action Item	Completion Date	Accountable Executive(s)	References	
	Complete	Establish an annual process to support PUC by providing information needed to create PUC Report on Dispatchable and Non-Dispatchable Generation annually	Annually, beginning 12/1/23	Rickerson	<ul style="list-style-type: none"> • PURA § 39.1591

HB 1500, Section 23, Sec 39.1592: HB 1500 in part requires that the PUC implement performance requirements for certain generation facilities with interconnection agreements signed on or after January 1, 2027. The owners or operators of such generation facilities shall annually demonstrate compliance; the PUC shall require ERCOT to enforce the requirements and impose financial penalties and incentives.

Status	ERCOT Action Item	Completion Date	Accountable Executive(s)	References
 In Progress	Monitor and participate in PUC project related to generation performance requirements, penalties, and incentives until complete	12/1/27	Rickerson	• PURA § 39.1592(c), (d)
 Not Started	After adoption of any PUC rule changes regarding generation performance requirements, penalties, and incentives, modify Protocols and processes as needed. May result in substantial changes to ERCOT systems and processes.	12/1/27	Rickerson	• PURA § 39.1592(c), (d)

HB 1500, Section 23, Sec 39.1593: HB 1500 in part requires that the PUC direct ERCOT to evaluate, with input from the Technical Advisory Committee (TAC), the cost allocation of Ancillary Services (AS) and reliability services. The PUC shall evaluate and submit a report to the Legislature by December 1, 2026 on the cost allocation of AS and reliability services.

Status	ERCOT Action Item	Completion Date	Accountable Executive(s)	References
● Not Started	Conduct, with TAC input, a cost-allocation analysis of AS and reliability services	TBD	Rickerson Woodfin	• PURA § 39.1593(a)
● Not Started	Support PUC by providing information needed to create PUC's one-time report on cost allocation of AS and reliability services	12/1/26	Rickerson Woodfin	• PURA § 39.1593(b), (c), (d)

HB 1500, Section 23, Sec. 39.1594: HB 1500 in part imposes specified limits on any credit-based resource-adequacy program, such as the Performance Credit Mechanism (PCM), that might be placed on Loads or LSEs. The PUC and ERCOT shall consider comments and recommendations from TAC when adopting and implementing such a program. Before PUC adoption of such a program, the PUC shall require ERCOT and the IMM to provide the PUC and Legislature with a report with an updated assessment that includes specified topics. ERCOT must begin implementing real time co-optimization of energy and ancillary services in the ERCOT wholesale market before the program is implemented.

Status	ERCOT Action Item	Completion Date	Accountable Executive(s)	References

Outstanding Items from 87th Legislative Session

ERCOT Status

This document includes updates regarding ERCOT's implementation of changes in law enacted by the 87th Legislature that were in progress when the 88th Legislative Session ended. All other ERCOT action items from the 87th Legislative Session are complete.

A full status of ERCOT actions from the 87th Legislative Session as of June 1, 2023 is available on [ERCOT.com](https://ercot.com).

SB 3, Sections 4 and 16 and HB 3648, Critical Natural Gas Facilities and Entities: The RRC and PUC will collaborate to adopt rules establishing a process for designating certain natural gas facilities and entities associated with providing natural gas in Texas as critical customers or critical gas suppliers during an energy emergency.

Status	ERCOT Action Item	Completion Date	Accountable Executive(s)	References	
	In Progress	Monitor PUC Project regarding Review of Critical Load Standards and Processes to determine if there are ERCOT action items	TBD	Hobbs	<ul style="list-style-type: none"> • PURA § 38.074 • PUC Project No. 51888

SB 3, Section 14, Review of Wholesale Market Design: The PUC shall review the type, volume, and cost of Ancillary Services (AS) to determine whether they will continue to meet the needs of the electricity market and evaluate whether additional services are needed for reliability while providing adequate incentives for dispatchable generation. ERCOT shall modify AS design, procurement, and cost allocation consistent with cost-causation principles and on a nondiscriminatory basis.

	Items in the blueprint are either completed or moved to their own projects.	Monitor and participate in PUC projects, regarding ERCOT wholesale market redesign, until complete	2/1/24	Collins Woodfin	<ul style="list-style-type: none"> • PURA § 35.004(g) and (h) • PUC Project No. 52373 (closed) and 53298 (closed)
	Complete	Implement ERCOT Contingency Reserve Service (ECRS) enhancement	7/1/23	Collins Woodfin	<ul style="list-style-type: none"> • PURA § 35.004(g) and (h) • PUC Project No. 52373 (closed) • NPRR863
	Complete	Support PUC, as needed, and work with IMM to compile data for Ancillary Services review	9/5/24	Collins Woodfin	<ul style="list-style-type: none"> • PURA § 35.004 (g)(1) • Project No. 55845

SB 3 Section 16, Involuntary Load Shedding: PUC shall establish by rule involuntary load-shed provisions for transmission service providers during an energy emergency. The PUC and ERCOT shall conduct simulated or tabletop load shedding exercises at least twice a year with at least one during a summer month and at least one during a winter month.

Status	ERCOT Action Item	Completion Date	Accountable Executive(s)	References
 In Progress	Monitor and participate in PUC project, regarding Critical Load Standards and Processes, until complete	TBD	Hobbs Woodfin	<ul style="list-style-type: none"> • PURA § 38.076(a) • Project No. 51888
 Not Started	After adoption of any PUC rule changes regarding critical load standards and processes, determine if there are ERCOT action items	TBD	Hobbs Woodfin	<ul style="list-style-type: none"> • PURA § 38.076(a) • Project No. 51888
 Complete	<p>Conduct simulated or tabletop load shedding exercises as part of semi-annual training activities.</p> <p>First conducted for Winter 21/22 and will continue at least every following summer and winter</p>	Ongoing	Woodfin	<ul style="list-style-type: none"> • PURA §38.077(a), (b)

SB 3, Section 18, Dispatchable Generation: ERCOT must establish requirements to meet the reliability needs of the power region; at least annually determine quantities and characteristics of Ancillary Services (AS) or reliability services necessary for reliability during extreme heat, extreme cold, and times of low non-dispatchable power production; procure AS or reliability services on a competitive basis for reliability during the same; develop appropriate qualification and performance requirements and penalties for such services; and size such services to prevent prolonged rotating outages due to net load variability in high demand and low supply scenarios. For PURA § 39.159, a generation facility is considered non-dispatchable if its output is controlled primarily by forces outside of human control.

Electric cooperatives' use of securitization to address extraordinary costs and expenses created by Winter Storm Uri. PURA chapter 41, subchapter D enables electric cooperatives to issue securitized bonds to finance the payment of extraordinary costs and expenses incurred during the period of emergency. Under sections added to PURA chapter 39, ERCOT shall report Market Participants (MPs) who fail to fully repay amounts incurred during the period of emergency. The PUC and ERCOT shall pursue full collection of amounts owed.

Status	ERCOT Action Item	Completion Date	Accountable Executive(s)	References
 In Progress	ERCOT shall pursue full collection of amounts owed by defaulting MPs.	Ongoing	Seely Rickerson	• PURA § 39.160(c)

Relating to utility facilities for restoring service after widespread outage: Permits a TDU to (1) lease and operate facilities that provide temporary emergency electric energy to aid in restoring distribution service during certain widespread power outages; and (2) procure or enter cooperative agreement with other TDU to jointly own and operate facilities that have a \geq six-month lead time and would aid in restoring power to distribution customers, but not energy storage equipment. The leased facilities that provide temporary emergency electric energy may not be included in ERCOT Locational Marginal Pricing calculations, pricing, or reliability models.

Status	ERCOT Action Item	Completion Date	Accountable Executive(s)	References
 In Progress	Analyze whether changes to offer-submission processes are needed to prevent TDU from offering energy or AS from TDU-leased temporary electric energy facilities, prevent such facilities from being included in LMPs or pricing	TBD	Collins	<ul style="list-style-type: none"> • PURA § 39.918(c) and (d) • PUC Project No. 53404
 Complete	Monitor and provide support to PUC in PUC rulemaking, regarding restoration of electric service after a widespread outage, until complete	12/19/24	Hobbs Woodfin	<ul style="list-style-type: none"> • PURA § 39.918 • PUC Project No. 53404 • 16 TAC § 25.56 and 25.59
